

# AE club

## The Architecture and Engineering Club

The AE club is a UAA student club focusing on "hands on" experience while assisting Habitat for Humanity in their mission to eliminate substandard housing. The AE club is open to any and all UAA students carrying 3 credits that are interested in doing service work. We raise most of our travel money through fund-raising events. We travel every year to different parts of the country during the two weeks between the spring and summer semesters. Last summer we traveled to Vero Beach Florida on our third trip to the state. The AE club has done more than 10,000 hours of community service work with Habitat for Humanity locally and nationally and raised more than \$12,000.00 for the Anchorage Habitat for Humanity.

This year we are returning to New Orleans for the fifth time in 10 years. On our first trip to New Orleans we worked on the first three houses built in New Orleans after Katrina. In the past we have had the privilege of working with Habitat for Humanity in: Charleston, South Carolina 2005- Baton Rouge and New Orleans, Louisiana 2006- New Orleans and Port Sulphur, Louisiana 2007- Miami, Florida 2008- Houston and Galveston, Texas 2009- New Orleans, Louisiana 2010- Miami, Florida 2011- New Orleans, Louisiana 2012 and Vero Beach, Florida 2013.
